MARILYN AND MOONY ARE TYING THE KNOT IN LAS VEGAS, incorporating vintage elegance with a simplistic modern edge into their wedding style. The newly engaged couple is having a family style reception at Craftsteak, inside the MGM Grand. They need help in visualizing some ideas on how to bring their wedding style into their reception decor. The couple is interested in seeing a combination of tall and low centerpiece concepts. Can our featured floral designers help them with their wedding day look?

FLOWERS

HER BOUQUET

Marilyn likes a hand-tied bouquet either all monochromatic or with a blend of plum and artichoke colors.

HIS BOUTONNIERE

A complementing boutonniere with a unique touch to distinguish him from the groomsmen.

CENTERPIECES

Marilyn and Moony are interested in alternating tall and low centerpieces. They plan to use the restaurant's long rectangular tables, then add a table runner with a layering of centerpieces, votives and floating candles on top. The reception food will be served family style.

"Loved the bouquet and boutonniere. It was a perfect combination of vintage elegance! The use of non-floral fillers made it so unique and classy."
